For Dr Hillson's Cataract Surgery Patients

Two Days Before Surgery

One (1) drop of Zymar/Vigamox/gatifloxacin four times a day and Acuvail two times a day into the surgery eye.

4 times a day

2 times a day

First Day After Surgery

Continue Zymar/Vigamox/gatifloxacin (4 times a day) and Acuvail (2 times a day), and add Maxidex drops 4 times a day. Separate the drops by 2 minutes.

4 times a day

2 times a day

One Week After Surgery

Stop the Zymar/Vigamox/gatifloxacin drops, stay on Acuvail (2 times a day) Maxidex (4 times a day) for three more weeks.

2 times a day

4 times a day

Tim Hillson MD MA FRCSC Eye Physician and Surgeon

384 West Street North, Orillia, ON L3V 5E6 Tel: 705-325-6591 Fax: 705-325-9309

Other Important Information:

- If you use glaucoma drops, please continue using your drops the same way you did before the cataract surgery.
- For one week after surgery, use the eye shield while you sleep.
- Do NOT rub or get water in eye for one week.
- Wear U.V. protection sunglasses outdoors.
- No STRENUOUS ACTIVITY for one week.
- If your eyes feel dry or irritated, use Systane Artificial Tears.
- Contact our office ASAP if you are having pain, discharge, or worsening vision.
- If you are having problems in the evening or on the weekend, please go to your local emergency department and ask to see the eye surgeon on-call.

A Cataract Pack (available for \$20 purchase) includes the following:

- Zip-up pouch
- Eye shields (2)
- Paper tape
- Sun glasses for U.V. protection
- Systane Balance Artificial Tears sample
